C#/.NET Developer | WPF | Blazor | DevExpress | EF Core | SQL Server

PROFESSIONAL PROFILE

C#/.NET Developer specializing in business desktop and web applications. I work with WPF, DevExpress, Blazor, Entity Framework Core, SQL Server, REST API and Azure DevOps. Experienced in developing large logistics/ERP systems, migrating from .NET Framework to .NET 8, performance optimization and maintaining production codebases.

PROFESSIONAL EXPERIENCE

Software Developer C#/.NET

Vectio Sp. z o.o. | 01.2024 – present | remote

- Development of a business system for a logistics company, covering both desktop and web applications.
- Building modules in C#, WPF, DevExpress and MVVM, and developing the web part using Blazor/Razor.
- Working with Entity Framework Core 8, SQL Server, LINQ and the existing data access layer.
- Designing XAML views, forms, grids, dialogs and data filtering mechanisms.
- Implementing business logic for transport, fleet, fuel, document and permissions modules.
- Migrating the application from .NET Framework 4.8 to .NET 8, optimizing performance, diagnosing bugs and writing tests.

Software Developer C#/.NET

Volvo Sp. z o.o. | 11.2022 – 09.2023 | Wrocław

- Development of production, diagnostic and calibration applications in an international environment.
- Creating and maintaining applications in C#, .NET, WPF, WinForms and DevExpress.
- Bug analysis, performance improvements, memory leak fixes and work with SQL, Azure DevOps, Docker and RabbitMQ.
- Cooperation with testers, analysts, UX and stakeholders in planning and risk assessment of changes.

TECHNICAL COMPETENCIES

Desktop/UI	WPF, WinForms, DevExpress, XAML, MVVM, Telerik, .NET MAUI, Avalonia UI
Web/.NET	Blazor, Razor, ASP.NET MVC, ASP .NET Core, REST API, HTML, CSS, JavaScript, basic Angular
Data	SQL Server, SQL, Entity Framework Core, LINQ, migrations and work with existing data models
Quality	debugging, bug analysis, tests, performance optimization, production code maintenance

SELECTED PROJECT AREAS

Logistics / ERP system Modules for transport, fleet, drivers, documents, costs, fuel and operational processes.	.NET technology migration Participation in migrating a large business application from .NET Framework 4.8 to .NET 8.
Database and integration modules Work with EF Core, SQL Server, LINQ, application services and data access logic.	Volvo production applications Tools for production, diagnostic and calibration environments in an international context.

EDUCATION AND COURSES

Computer Science — Adam Mickiewicz University in Poznań | 09.2020 – 04.2023
Business management course — SERWIS IT / REVAS business simulations
